1Q 2017 Domestic Well List for EPA.xlsx

.....  
Dante,

Below is the description of the planned 1Q Domestic Well Sampling for the Yerington site.

Please let me know if you have any questions.

Thanks,

-jack

**Subject:** 1Q 2017 Domestic Well Sampling

Jack,

Attached for EPA's reference is a spreadsheet that summarizes wells identified in the Domestic Well Monitoring Program (DWMP) as of February 21, 2017. No changes have occurred to the DWMP since August 2016. The domestic well monitoring program currently consists of:

211 wells total

182 "Yes", we have signed access agreements (although up to 39 wells are potentially to be sampled)

4 "Pending", owner(s) have indicated that a signed access agreement will be sent

2 "Outstanding", access agreement sent but not returned, we have been unable to contact by phone and/or in person

23 "No", owner(s) not interested in program, have declined access to sample their well

1Q 2017 domestic well sampling is scheduled to start at 11 AM on Tuesday, March 14<sup>th</sup> and potentially last through the end of Friday, March. 17<sup>th</sup>. During the 1Q 2017 event, both "Quarterly" and "Semi-Annual" wells at residences not currently receiving City water will be

sampled (up to 39 residences to be sampled). The second tab on the attached spreadsheet indicates the 39 wells potentially to be sampled during the event. Please let me know if the EPA will be collecting split-samples this quarter.

I'll let you know of any revisions to this information before the 1Q 2017 event.

Please let me know if you have any questions.

Thanks!

**Jeremy Boucher, PE, CEM**
